

U 905 Controller

Version:1.0_221026_EN

Have four-way independence USB HUB

Provide 1.8V 3.3V 3.8V 5V power supply

Two independent serial port communication

4-way SPDT and 6-way STST

A single 905 can apply a variety of practical scenarios to complete automated testing

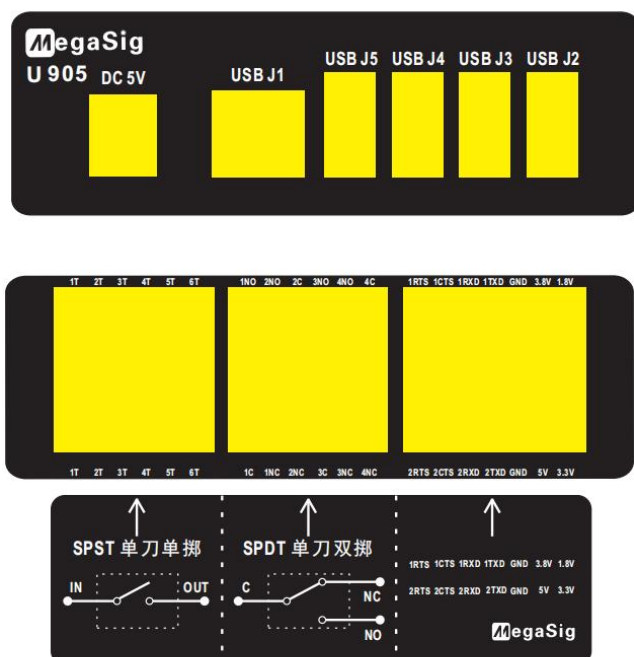

General Specifications

U905 parameters	
Working Voltage	5V
Dimensions(mm)	96*33*140
Suitable Temperature	-20℃~50℃
Command Control	USB

General Features

- Provide 4 kinds of common voltages and hubs, stable power supply, and more reliable data transmission
- It can be combined with program-controlled single pole single throw and double throw, and can flexibly control the output voltage for automatic testing
- Two channel serial port communication, and control data transmission and receiving at the same time
