Standard Microphone Fixture

The LH 006 (1/2") and LH 007 (1/4") are designed for standard microphones. Its circular design minimizes reflections during use. The manual tightening mechanism on the side provides a stable and robust structure, is easy to use, and significantly reduces installation workload. A standard tripod thread is incorporated into the bottom, allowing it to be mounted on a tripod.

The actual purchased LH 006 and LH 007 unit does not include the microphone.

Features

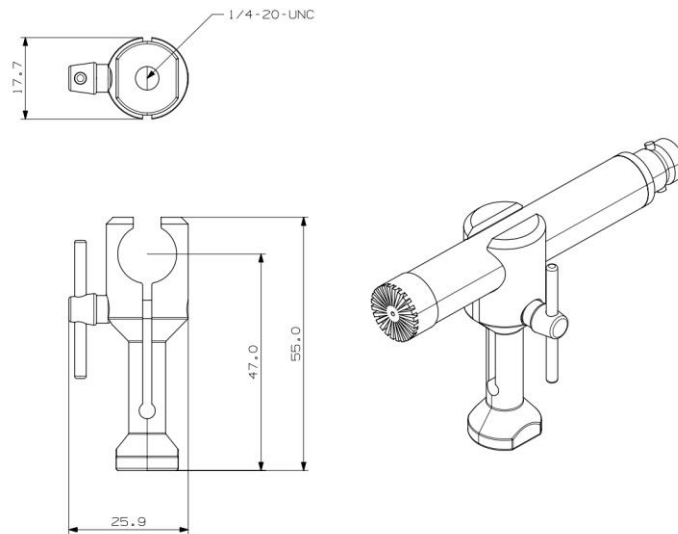

- Convenient manual installation
- Manually adjustable screw; no tools required for tightening
- Standard tripod screw on the bottom for tripod mounting
- Circular design reduces reflections
